The Building Industry and Land Development Association (BILD) presented their coveted awards to this year's winners, most notably Home Editions Ltd. for 2009 Renovator of the Year. RENO & DECOR Magazine is proud to be the exclusive sponsor of these awards.

The prestigious Renovator of the Year award goes to the company whose professionalism helps raise the standard for all renovators and whose efforts improve the public image of renovators in the Greater Toronto Area. The award reflects how well the renovator performed in meeting the needs and expectations of customers while contributing to the association and the industry.

In response to BILD's independent survey of all clients of the finalists, this is what Home Editions' delighted homeowners had to say: "Excellent workmanship" and "working with our priorities" were some of the favourable comments made by satisfied Home Editions' customers. The testimonials highlighted the commitment Home Editions Ltd. makes to the detail and trust for their clients.

Home Editions Ltd.

As well as Renovator of the Year, Home Editions Ltd. also won for best renovation from \$150,000 - \$300,000, for their work on transforming a 1930's home to include a new kitchen and family room extension. In addition, they provided cosmetic upgrades to the existing main floor with new flooring, a new fireplace mantel and painting.
